This is from a larger group of R staff, House and Senate. Because there is so much interest, we need to group the calls. The calls involve staff from Region 3, OECA, OGC and OSWER. Monday was the only day next week Regional staff were available. Let me check on availability.

"Wong, Jetta" Was this a request from SS&T or from the larger group interested in Dimock?... 03/29/2012 10:36:19 AM

Was this a request from SS&T or from the larger group interested in Dimock? Could we set up the same call? We are free anytime on Monday?
thx

Not on hydraulic fracturing specifically. However, I have received request for follow-up call on Dimock. Currently looking at Monday for a call.

Attached, please find the data files which include results from the first week of EPA sampling in Dimock. Names and addresses have been removed due to privacy reasons.

Also included are the cover letter that accompanied the data packets, as well as a key for interpreting some of the columns and data qualifiers. Due to a formatting error, we re-printed the data packets and provided under the second cover letter.

This data has been shared with PADEP and is available on the EPA Region 3 web page, summary table at <http://www.epa.gov/aboutepa/states/pa.html> along with some additional background information.
